REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

The Trustees would appreciate it very much if patrons of the Library would send in the title of any book which they consider desirable for the Trustees to purchase. We find it no easy task among such a vast array of Authors, to make a selection which will meet the approval of a majority of readers.

The Reports of the Treasurer and Librarian follow: In the office of the latter, we have to announce, with regret, the resignation of Edna K. French who has served faithfully and well. Miss Ruth Brown has been appointed to fill the vacancy.

Respectfully submitted

SCHOOL WARRANT
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the town of Sandown, qualified to vote in district affairs:

You are hereby notified to meet at the Sandown Town Hall in said district on the 17th day of March 1941, at 8 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Tuant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To see if the district will vote to build and equip a new two room school building at a cost not to exceed \$4,600.
10. To see if the district will appropriate money for that purpose by issuing bonds or notes of the District not to exceed \$10,000.

11. To see if the district will vote to authorize the District Treasurer, with the approval of the School Board, to prepare, issue, and sell said bonds or notes under the provisions of the "Municipal Bonds Statute", or any other State or Federal statute applicable thereto, said bonds or notes not to exceed \$10,000.

12. To see if the district will vote to appoint a building committee made up of the School Board, and two members nominated and elected by the district.

13. To transact any other business that may legally come before this meeting.

Given under our hands at said Sandown this 2nd day of January, 1941.

Auditor

July 13, 1940.

To the School Board and Citizens of Sandown:

I herewith present my second annual report as Superintendent of Schools.

This report covers the financial and statistical report for the school year 1939-40. As you all know, Miss Andrews resigned in June 1940 to get married, and we were very fortunate in securing the services of Mrs. Snodgrass of Fremont who had a number of years of experience teaching in Epping and other towns.

Tho' the financial and statistical report deal with 1939-40 I want to speak of something that is much more current.

The condition of both the Clark and Pine Schools is far from good. The underpinning of the Pine School is bad, the floors are bad at both schools, the out-houses are far from sanitary and the light is poor in both buildings. This means that rather extensive repairs are overdue at the present time. The point is, however, that after you spend \$500. or \$600. for repairs, you still have two worn out and out moded old school houses.

I realize very keenly the financial strain of a new school building would put on the tax payers of Sandown, but the day is coming when a new school building will have to be built. Wouldn't it be penny wise and pound foolish to continue to put money in those old buildings?

For a sum not to exceed \$10,000. a very nice two room building can be built. Spread over a 20 year period, this would mean a payment of \$500.00 each year on the principal.

The interest would run from \$300. the first year down to \$15.00 the last year. This would mean an increase in the tax rate the year after the school was built of about 30 cents a hundred, this decreasing gradually as the interest grows less. This would seem to me a wise course of action for the town to follow.

Before continuing with the statistics, I am going to insert a brief outline on the Central School.

THE CENTRAL SCHOOL

By H. Raymond Danforth

We find in the 17th year book of the "American Association of School Administrators", this statement: "In many parts of the country existing school systems are so small that they cannot provide effective educational program which is worthy of the children to be served. The obvious answer to this problem is the establishment of larger units which will provide a more complete program and at a cost which can be met."

The aim and purpose of modern education is, well summed up by a "Statement of Policy" by the Elkhart, Indiana School Board.

"The aim and purpose of the Elkhart Public Schools is the development of the total personality of the child as essential to happy, useful, and successful citizenship in a democracy".

Thus preparation for life in a democracy is the burden of responsibility shared by the home, the church, and the modern public school.

With the increased ease of transportation, pupils can be brought more readily to Central schools equipped and staffed to do a better job because of modern equipment, larger numbers of pupils and more teachers working together for the best interests of the pupils.

Here are some of the advantages of a Central School.

1. In a Central School, we cut down on the number of grades assigned to each teacher.

- (a) Obviously a teacher with only two grades can do a better job than one with four grades; or a teacher with four grades, a better job than one with eight grades.

2. In a Central School we can take advantage of many of the radio lesson programs.

(a) Many educational radio programs are presented each school day in Music Appreciation, History, Drama, etc., which can be had for the turning of a dial, if you have the dial.

3. In a Central School, a 16 millimeter movie projector would not be an impossibility.

(a) Hundreds of splendid films of an educational nature are available for class room teaching, free. For youngsters who are visual and audio minded, these radio and motion picture lessons are valuable aids in the instructive process.

4. In a Central School with a principal in charge, we can have better coordinated administration and discipline.

(a) The principal helps to tie together the work of all teachers through joint planning and joint conference on the behavior problems which are always arising.

5. In a Central School, we can have better guidance of the pupils.

(a) Today, schools try to help each individual pupil develop their special traits and talents which are not the same in any two pupils. This calls for careful planning on the part of the teacher, and should be carried on throughout the entire school life of the pupil.

6. In a Central School, we can develop pride in the whole community.

(a) The centralizing of schools tends to develop a whole community consciousness, and eliminates the petty feuds and rivalries of sections of a community.

7. In a new Central School, we can have better facilities of all kinds.

(a) Better light and heat, modern toilet facilities, more and better playground equipment, and facilities for social and personality development.

8. In a Central School, we can have better organized activities—games, plays, clubs, etc.

(a) This is true because we have more teachers to help and more pupils to participate.

(b) One of the most important things in education is the socializing and personality development of each pupil. This process goes on much better with the large groups.

9. The Central School is possible today because of the ease of transportation.

(a) The invention which revolutionized life in these United States, also makes it possible for us to keep up with the times in providing the kind of educational opportunities our children need.

10. In a Central School, we can economize.

(a) Over a period of time, it is more economical to operate one large building than to maintain, insure, and heat several small buildings scattered around town.

These are some of the advantages a Central School offers. Those citizens who, in these troubled times, want to promote and advance the Democratic way of life, will insist that their children be given the advantages of modern schools.

Those pupils who are faithful in attendance should have special mention. This honor goes to Alice Mer-

rick of the Pine Grove School and Eleanor Bassett of the Clark School.

The following information gives a brief summary of the statistical data of the school year 1939-40.
